

Wine Barrels

Written by Isabel Thomson

Thursday, 26 May 2016 09:17 - Last Updated Thursday, 26 May 2016 10:12

Thomson's always has a great variety of authentic wine barrels for sale. Barrels are manufactured out of French oak timber; and originates from countries like France, Bulgaria and Hungary. Barrels are typically used in the South African wine industry for a four year period after which Thomson's makes these items available to the general market. Barrels are not only sold from our premises in Sabie but are also being delivered to Gauteng and the Highveld regions free of charge.
